WORK EXPERIENCE

WEB DEVELOPER

Purplefire | November 2024 - Present

- Developed and maintained client websites using HTML, CSS, JavaScript, and WordPress
- Assisted with performance optimization, cross-browser testing, and responsive design implementation
- Supported DNS configurations, hosting setup, and deployment processes for client projects
- Ensured consistent UI quality and code standards across all delivered web projects
- Collaborated within an agile team environment to meet client requirements and project deadlines

WEB DEVELOPER

Soifon | February 2024 - October 2024

- Developed dynamic, responsive websites with a focus on performance, security, and cross-browser compatibility
- Handled DNS management, hosting environments, and full deployment workflows from development to production
- Configured Cloudflare for SSL termination, CDN delivery, custom caching policies, and site-level security hardening
- Applied on-page SEO techniques including meta optimization, site structure, and page speed improvements
- Managed social media presence and collaborated with designers and developers to deliver scalable client solutions

WEB DEVELOPER

Titans Marketing | May 2023 - February 2024

- Built and maintained responsive websites from scratch using HTML, CSS, JavaScript, PHP, and MySQL across WordPress, Shopify, and Wix
- Managed DNS configurations, hosting setup, and end-to-end deployment pipelines from development to production
- Configured Cloudflare for SSL, CDN delivery, caching rules, and security hardening across client projects
- Implemented SEO best practices and performance optimizations to improve upload times and Core Web Vitals
- Collaborated with designers and cross-functional teams to deliver production-ready digital solutions on time and within scope
